Education and Demographics Presentation -Myron Orfield-

institute on race & poverty

Research, Education and Advocacy

- **In 1992, there were only 9 non-white segregated schools – around 2% of all schools in the metro area. By 2002, the number of non-white segregated schools jumped to 109 – nearly 20% of all schools**
- **The share of students of color attending non-white segregated schools increased more than fivefold from 9% in 1992 to 46% in 2002. The number of students of color attending non-white segregated schools in the Twin Cities area skyrocketed from 2,832 in 1992 to 29,788 in 2002.**

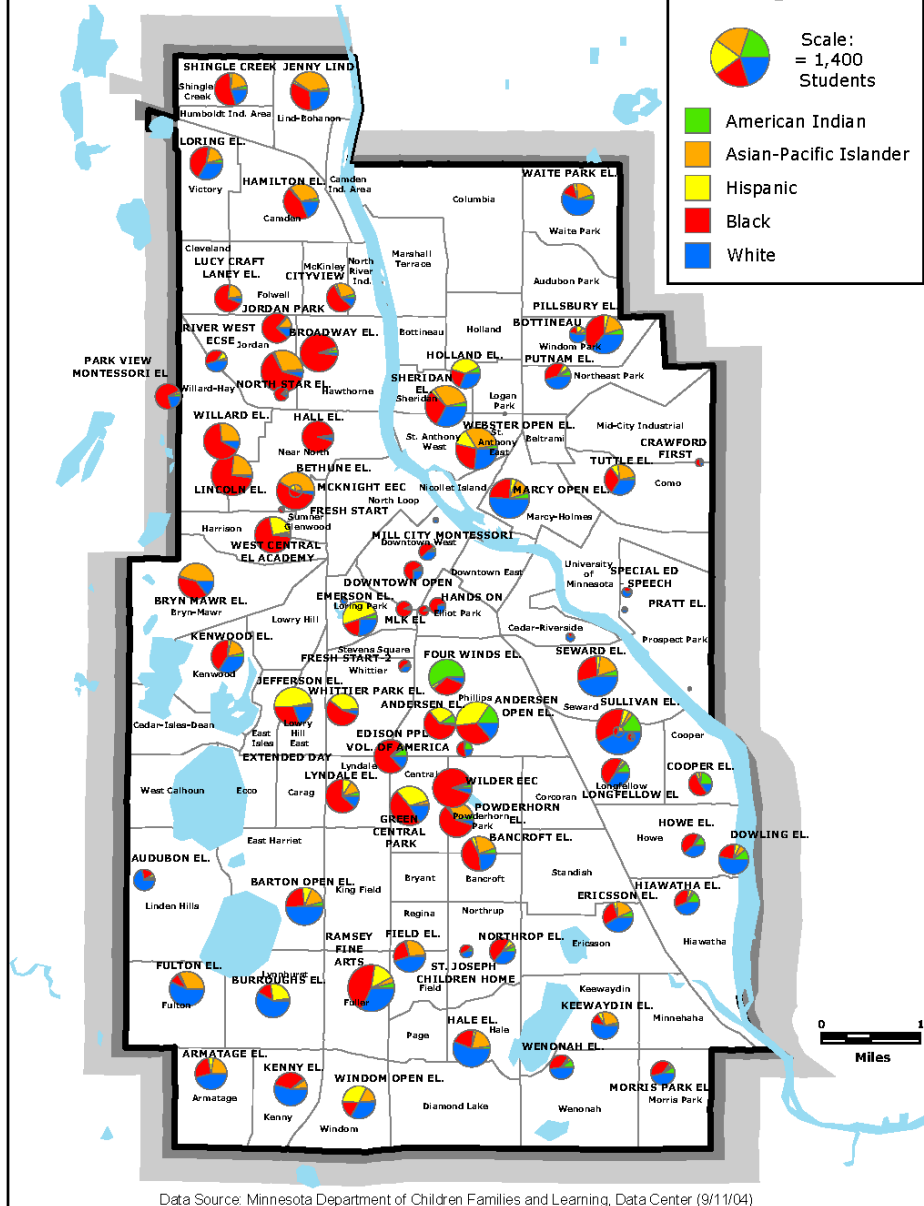

- **The share of black students in non-white segregated schools more than tripled from 14% in 1992 to 50% in 2002. This meant that 14,560 black elementary students attended segregated schools in 2002, up from 1,981 in 1992.**
- **The share of Latino/a and Asian students attending non-white segregated schools increased even more dramatically from 1992 to 2002-increasing from 3 to 39% for Latinos and from 1% to 45% for Asians. During this period, the number of Latino elementary school students in segregated schools went from 81 to 5,122 while the number for Asian elementary students increased from 141 to 8,859.**

- **From 1992 to 2002, the school poverty rate faced by a typical non-white elementary student increased from 40 to 44%, while the rate faced by a typical white student declined from 14 to 13%.**
- **The share of non-white students attending non-white segregated schools in the central cities jumped from 12 to 75% from 1992 to 2002.**
